Respondus – Online Proctoring Tool
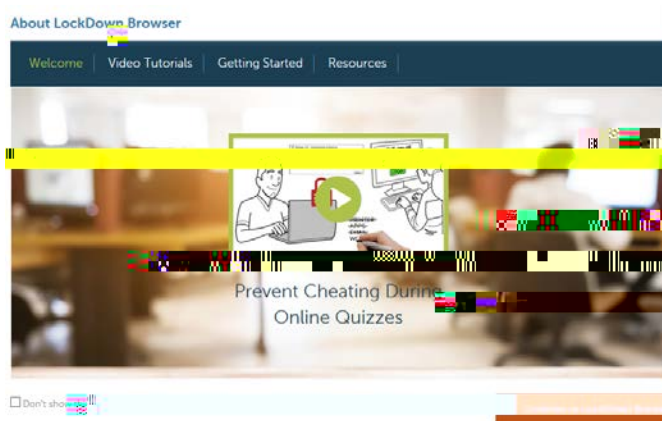

What is Respondus?

Lockdown Browser

LockDown Browser® is a custom browser that locks down the testing environment within a learning management system.

Monitor

Monitor® builds upon the power of LockDown Browser, using a student's webcam and industry-leading video analytics to prevent cheating during non-proctored exams.

Thi

There is a video recorded Webinar focused on teaching Faculty how to use it: http://web.respondus.com/monitor-training/
